The amendment document filed on <u>01 October 2003 and on April 12, 2004</u> is considered non-compliant because it has

failed to meet the requirements of 37 CFR 1.121. In order for the amendment document to be compliant, correction of the following item(s) is required.
THE FOLLOWING MARKED (X) ITEM(S) CAUSE THE AMENDMENT DOCUMENT TO BE NON-COMPLIANT: ☐ 1. Amendments to the specification: ☐ A. Amended paragraph(s) do not include markings. ☐ B. New paragraph(s) should not be underlined. ☐ C. Other <u>See Continuation Sheet</u> .
 2. Abstract: A. Not presented on a separate sheet. 37 CFR 1.72. B. Other
 3. Amendments to the drawings: A. The drawings are not properly identified in the top margin as "Replacement Sheet," "New Sheet," or "Annotated Sheet" as required by 37 CFR 1.121(d). B. The practice of submitting proposed drawing correction has been eliminated. Replacement drawings showing amended figures, without markings, in compliance with 37 CFR 1.84 are required. C. Other
 ✓ A. A complete listing of all of the claims is not present. ✓ B. The listing of claims does not include the text of all pending claims (including withdrawn claims) ✓ C. Each claim has not been provided with the proper status identifier, and as such, the individual status of each claim cannot be identified. Note: the status of every claim must be indicated after its claim number by using one of the following status identifiers: (Original), (Currently amended), (Canceled), (Previously presented), (New), (Not entered), (Withdrawn) and (Withdrawn-currently amended). ✓ D. The claims of this amendment paper have not been presented in ascending numerical order. ✓ E. Other: See Continuation Sheet.
For further explanation of the amendment format required by 37 CFR 1.121, see MPEP § 714 and the USPTO website at http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/officeflyer.pdf .
TIME PERIODS FOR FILING A REPLY TO THIS NOTICE:

- 1. Applicant is given no new time period if the non-compliant amendment is an after-final amendment or an amendment filed after allowance. If applicant wishes to resubmit the non-compliant after-final amendment with corrections, the entire corrected amendment must be resubmitted within the time period set forth in the final Office action.
- 2. Applicant is given one month, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the corrected section of the non-compliant amendment in compliance with 37 CFR 1.121, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a Quayle action.

Extensions of time are available under 37 CFR 1.136(a) only if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action.

Failure to timely respond to this notice will result in:

Abandonment of the application if the non-compliant amendment is a non-final amendment or an amendment filed in response to a Quayle action; or

Non-entry of the amendment if the non-compliant amendment is a preliminary amendment or supplemental amendment.

⁻⁻ The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Continuation of 1(c) Other: The amendment to the specification in the April 2004 preliminary amendment does not properly use markings to show changes. Under 37 CFR 1.121, brackets may be used to show deletion only of five or fewer characters. Otherwise a strikethrough is required.

Continuation of 4(e) Other: The preliminary amendment to the claims (October 1, 2003) does not meet the requirements of 37 CFR 1.121 for the following reasons.

The status identifiers of the claims do not reflect the status of the claims as presented in the present application. In the present application, no claims have yet been withdrawn or allowed.

The claims as presented in the prelimiary amendment do not show changes to the claims relative to the immediate prior version of the claims. For example, the claim of set of the present application originally comprised only 76 claims, whereas the preliminary amendment incorrectly identifies newly added claims 77-90 as allowed and newly added claims 91-115 as either withdrawn or currently amended. As these claims are newly added by the preliminary amendment, it is clear that the Applicant has not presented the amended claims relative to the immediate prior version of the claims in the present application.

The claims presented in the prelimiary amendment do not provide a complete listing of the claims, including the claim text, or each pending claim in the application.
